PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of professional experience building responsive web applications using React.js, Node.js, Express.js and MongoDB. Experienced in developing REST APIs, implementing JWT authentication, and creating scalable, mobile-first user interfaces with Tailwind CSS. Passionate about building clean, user-friendly applications and continuously learning modern web technologies.

SKILLS

JavaScript (ES6+) | HTML5 | CSS3 | SQL | React JS | Redux | Context API | Tailwind CSS
Vite | Node JS | Express JS | Rest APIs | JWT Authentication | MongoDB | MySql
PostgreSQL | Git & Github | Postman | VS code | Netlify | Vercel | Render
Cloudinary | PHP | XAAMP | MongoDB Atlas

EXPERIENCE

1. Software Developer Intern - Oxium Tech Consultancy pvt ltd , Bengaluru

March 2026 - June 31

Telinfy

- Studied the workflow and architecture of the Telinfy business communication platform.
 - Gained an understanding of WhatsApp Business messaging, chatbot workflows and customer engagement solutions.
 - Learned how marketing campaigns are created, scheduled and delivered through the platform.
 - Gained exposure to industry software development workflows and team collaboration
- Website Link** - <https://one.telinfy.com/>.

Car Rental Web Application

- Developed a full-stack car rental system with authentication and booking features.
 - Built REST APIs using Node.js and Express; implemented JWT-based authentication.
 - Created responsive UI using React, Vite, and Tailwind CSS with reusable components.
 - Used Context API for state management and Git for team collaboration.
- Github link** : <https://github.com/fathimabs/carRentalservice>

Blog Platform with Authentication

- Designed and implemented RESTful APIs for blog CRUD operations & secure user authentication and authorization
 - Implemented state management using Redux to efficiently handle global application state.
 - Used React Toastify for real-time user feedback and notifications.
- Github link** : <https://github.com/fathimabs/BlogSpace>

2. Trainee Job Junction,Trivandrum

December 2025 - February 2026

- **Projects**

Mythra – Movie & Book Tracking Application

- Developed a full-stack web application using React, Node.js, and Express for tracking movies and books.
- Integrated MongoDB for data storage and efficient querying.
- Designed and implemented RESTful APIs supporting CRUD operations and structured data flow.
- Built a responsive, component-based UI using Tailwind CSS. implementing mobile-first design
- Currently implementing advanced search, filtering, and sorting features to improve data retrieval performance.
- Planned enhancements include an AI-powered chat feature using OpenAI GPT APIs for interactive user guidance and support.
- Future improvements include personalized recommendations for movies and books based on user activity and preferences.

Website link : <https://mythra.netlify.app/>

Portfolio Website

- Designed and developed a fully responsive personal portfolio website using React.js, Vite and Tailwind CSS.
- Integrated downloadable resume and direct links to GitHub, LinkedIn, and contact information.
- Deployed the portfolio using Vercel with GitHub for version control and continuous updates.

Website link : <https://fathimabs-portfolio.vercel.app/>

HappyPaw - Responsive Static Website

- Designed and developed a fully responsive pet care website using HTML5 and CSS3
- Used Flexbox to create clean, organized, and visually appealing page layouts.
- Applied mobile-first design principles to ensure compatibility across desktops, tablets and smartphones

Website link : <https://fathimabs.github.io/HappyPaw/>

3. Web developer Softzane Solutions, Kollam

January 2022 - Janary 2023

- Administered databases and designed websites, ensuring efficient data handling and visually consistent web solutions.
- Created and managed multiple web projects using PHP, MySQL, and Smarty templates, improving development efficiency and project scalability.
- Built responsive layouts based on client requirements using HTML5 and CSS, ensuring accurate implementation of design specifications.
- Worked as a Web Developer and Student Mentor, guiding students through real-world projects and improving their technical and problem-solving skills.

4. Internship Softzane Solutions, Kollam

August 2021 - Janary 2022

- Learned and worked on Angular-based web applications, developing reusable components and implementing routing and form validations.

EDUCATION

Bachelors in Computer Science

June 2018 - March 2021

University of Kerala
